

ESEN YEL

esenyel@stanford.edu | esenyel.github.io/personal

RESEARCH INTERESTS

The main objective of my research is to achieve safe, generalizable, and trustworthy autonomy for systems under uncertainty. My research uses concepts from reachability analysis, machine learning, verification, motion planning, and transfer learning to develop safe planning and runtime monitoring techniques.

EDUCATION

University of Virginia	Charlottesville, VA
Ph.D., Systems Engineering	2021
Dissertation: <i>Online predictive monitoring and proactive planning for safe autonomous robot operations</i>	
Bogazici University	Istanbul, Turkey
M.S., Electrical and Electronics Engineering	2016
Thesis: <i>Appearance based self localization and navigation using place memory</i>	
B.S., Electrical and Electronics Engineering	2014

RESEARCH EXPERIENCE

Stanford University	Stanford, CA
Position: Postdoctoral Scholar	2021 – Present
Affiliations: Stanford Intelligent Systems Lab (SISL), Stanford Center for AI Safety	
Advisor: Mykel Kochenderfer	
<ul style="list-style-type: none">• Lead and contribute to industry-sponsored research projects on safety validation, probabilistic safe planning, and transfer learning for autonomous vehicles under uncertainty• Mentor graduate and undergraduate students on research projects• Lead and contribute to proposal writing and grant application processes	
University of Virginia	Charlottesville, VA
Position: Graduate Research Assistant	2016 – 2021
Affiliations: Autonomous Mobile Robots Lab, Link Lab	
Advisor: Nicola Bezzo	
<ul style="list-style-type: none">• Developed assured runtime monitoring and replanning techniques for systems under disturbances• Developed online replanning techniques for autonomous systems under unforeseen faults• Developed self-triggered scheduling techniques to decrease sensing computation	
Bogazici University	Istanbul, Turkey
Position: Graduate Research Assistant	2014 – 2016
Affiliations: Intelligent Systems Lab (ISL)	
Advisor: H. Işıl Bozma	
<ul style="list-style-type: none">• Developed appearance-based self-localization and navigation approaches for mobile ground robots	

AWARDS

Rising Stars in Electrical Engineering and Computer Science	2022
Link Lab Outstanding Graduate Research Award	2021
Link Lab, University of Virginia	

“This award was established as a way for faculty to recognize Link Lab students who have demonstrated excellence in research during the academic year.”

Robotics: Science and Systems (RSS) Pioneers Workshop Participant 2021
“RSS Pioneers brings together a cohort of the world’s top early-career researchers.”

Link Lab Student Seminar Award 2020
 Link Lab, University of Virginia
“The Link Lab Graduate Seminar provides a prestigious honor and award for a PhD student to showcase the highest quality research happening at Link Lab conveying impact and relevance in the CPS field”

Travel Awards

IEEE/RSJ International Conference on Intelligent Robots and Systems 2019

IEEE International Conference on Robotics and Automation PhD Forum 2018

Ruthie Oxford Memorial Award, Promising Graduate Student 2018
 University of Virginia, Department of Systems and Information Engineering

Dean’s High Honor List 2014
 Bogazici University, School of Engineering

PUBLICATIONS

Refereed Journal and Magazine Articles

- N. Rober, S. M. Katz, C. Sidrane, **E. Yel**, M. Everett, M. J. Kochenderfer, and J. P. How. “Backward reachability analysis of neural feedback loops: Techniques for linear and nonlinear systems”, IEEE Open Journal of Control Systems, 2023 (Early Access).
- **E. Yel***, S. Gao*, N. Bezzo, “Meta-learning-based proactive online planning for UAVs under degraded conditions”, (*equal contribution), Robotics and Automation Letters (RA-L), 2022, vol. 7, no. 4, pp. 10320–10327.
- **E. Yel**, T. X. Lin, N. Bezzo, “Computation-aware adaptive planning and scheduling for safe unmanned airborne operations”, Journal of Intelligent and Robotic Systems, 2020, vol. 100, no. 2, pp. 575–596.

TEACHING EXPERIENCE/TRAINING

Guest Lectures	Stanford University
Engineering Design Optimization	Spring 2023
• Gave a guest lecture on linear constrained optimization.	
Decision Making under Uncertainty	Winter 2023
• Gave two guest lectures on representation and inference.	
Advanced Topics in Sequential Decision Making	Winter 2022
• Gave a guest lecture on applications areas of partially observable Markov decision processes.	
Pedagogical Training	Summer 2022
Stanford Scientific Teaching Summer Institute	Stanford University
• Attended a 3-day workshop to explore the core principles of Scientific Teaching (inclusion and equity, active learning, assessment, and effective lesson planning).	
Graduate Teaching Assistantship	Bogazici University
System Dynamics and Control	Spring 2015, Spring 2016
Control Technology and Design	Fall 2015
Introduction to Electrical Engineering	Fall 2015
• Teaching responsibilities included grading and leading lab and discussion sessions.	
Undergraduate Student Assistantship	Bogazici University
System Dynamics and Control (Assisted discussion sessions)	Spring 2014
Orientation to Electrical Engineering (Assisted lab sessions)	Fall 2013

MENTORSHIP EXPERIENCE

Stanford University

- *Graduate Student Research*
 - Dylan Asmar, Out-of-distribution detection 2022 – Present
 - Anil Yildiz, Transfer learning and validation for autonomous driving tasks 2021 – Present
 - Liam Kruse, Safe planning for autonomous vehicles 2021 – Present
 - Sydney Katz, Backward reachability for nonlinear systems 2022 – 2023
 - Maneekwan Toyungyernsub, Occupancy grid prediction 2021 – 2022
 - Alexandros Tzikas, Trajectory verification for autonomous driving 2022
 - Chelsea Sidrane, Backward reachability for nonlinear systems 2022
- *Stanford Undergraduate Research Fellowship (SURF)* Summer 2022
Research mentor for an 8-week program to promote diversity within the engineering and science student body in the USA. I advised an undergraduate student on her research topic, monitored her research progress, and advised research alongside a graduate student. Student: Michelle Ho.
- *Undergraduate Students Research* 2022
Ellie Talius, Trajectory verification for autonomous driving

University of Virginia

- *Graduate Mentor for Capstone Project* Spring 2021
Co-mentoring four undergraduate students on a robot navigation project
- *Graduate Mentor for Society of Women Engineers* Spring 2017
Graduate student mentor for undergraduate engineering students associated with the Society of Women Engineers. This mentorship program involved helping a student navigate her early engineering education and career.

PRESENTATIONS

- | | |
|---|------------|
| Stanford Center for AI Safety Workshop, Talk | 2023 |
| Stanford SystemX 2021 Fall Conference, Poster | 2021 |
| UVA Link Lab Student Seminars, Talk | 2020 |
| UVA Link Lab Student Flash Talks, Talk | 2020 |
| UVA ESE Graduate Symposium, Poster | 2018, 2020 |
| ICRA PhD Forum, Poster | 2018 |
| UVA ECE Student Research Session, Poster | 2017 |

PROFESSIONAL SERVICE

- | | |
|--|------|
| Moderator, Stanford Center for AI Safety Workshop Industry Panel | 2023 |
| Member, Stanford Center for AI Safety Working Group | 2022 |
| Co-chair, Learning for Dynamics & Control Conference (L4DC) | 2022 |
| Program Committee Member, RSS Pioneers Workshop | 2022 |
| Session Co-chair, IEEE/RSJ International Conference on Intelligent Robots (IROS) | 2021 |
| Panelist, UVA Link Lab Student Panel: Writing and Publishing in Graduate School | 2021 |
| Co-organizer, UVA Systems Engineering Alumni Panel | 2020 |
| Session Chair, IEEE Systems and Information Engineering Design Symposium | 2019 |

REVIEW ACTIVITIES

Journals:

- IEEE Robotics and Automation Letters (RA-L)
- Journal of Artificial Intelligence Research (JAIR)

Journal of Aerospace Information Systems
IEEE Computer Magazine

Conferences

IEEE/RSJ International Conference on Intelligent Robots (IROS)
Conference on Robot Learning (CoRL)
IEEE Conference on Decision and Control (CDC)
American Control Conference (ACC)
IEEE International Conference on Robotics and Automation (ICRA)
ACM/IEEE International Conference on Cyber-Physical Systems (ICCPS)
IEEE International Conference on Intelligent Transportation Systems (ITSC)
