ESEN YEL

esenyel@stanford.edu | esenyel.github.io/personal

RESEARCH INTERESTS

The main objective of my research is to achieve safe, generalizable, and trustworthy autonomy for systems under uncertainty. My research uses concepts from reachability analysis, machine learning, verification, motion planning, and transfer learning to develop safe planning and runtime monitoring techniques.

EDUCATION

University of Virginia   Charlottesville, VA
Ph.D., Systems Engineering   *2021*
Dissertation: *Online predictive monitoring and proactive planning for safe autonomous robot operations*

Bogazici University   Istanbul, Turkey
M.S., Electrical and Electronics Engineering   *2016*
Thesis: *Appearance based self localization and navigation using place memory*

B.S., Electrical and Electronics Engineering   *2014*

RESEARCH EXPERIENCE

Stanford University   Stanford, CA
Position: Postdoctoral Scholar   *2021 – Present*
Affiliations: Stanford Intelligent Systems Lab (SISL), Stanford Center for AI Safety
Advisor: Mykel Kochenderfer

- Lead and contribute to industry-sponsored research projects on safety validation, probabilistic safe planning, and transfer learning for autonomous vehicles under uncertainty
- Mentor graduate and undergraduate students on research projects
- Lead and contribute to proposal writing and grant application processes

University of Virginia   Charlottesville, VA
Position: Graduate Research Assistant   *2016 – 2021*
Affiliations: Autonomous Mobile Robots Lab, Link Lab
Advisor: Nicola Bezzo

- Developed assured runtime monitoring and replanning techniques for systems under disturbances
- Developed online replanning techniques for autonomous systems under unforeseen faults
- Developed self-triggered scheduling techniques to decrease sensing computation

Bogazici University   Istanbul, Turkey
Position: Graduate Research Assistant   *2014 – 2016*
Affiliations: Intelligent Systems Lab (ISL)
Advisor: H. Işıl Bozma

- Developed appearance-based self-localization and navigation approaches for mobile ground robots

AWARDS

Rising Stars in Electrical Engineering and Computer Science   *2022*

Link Lab Outstanding Graduate Research Award   *2021*
Link Lab, University of Virginia

"This award was established as a way for faculty to recognize Link Lab students who have demonstrated excellence in research during the academic year."

Robotics: Science and Systems (RSS) Pioneers Workshop Participant *2021*
"RSS Pioneers brings together a cohort of the world's top early-career researchers."

Link Lab Student Seminar Award *2020*
Link Lab, University of Virginia
"The Link Lab Graduate Seminar provides a prestigious honor and award for a PhD student to showcase the highest quality research happening at Link Lab conveying impact and relevance in the CPS field"

Travel Awards
IEEE/RSJ International Conference on Intelligent Robots and Systems *2019*
IEEE International Conference on Robotics and Automation PhD Forum *2018*

Ruthie Oxford Memorial Award, Promising Graduate Student *2018*
University of Virginia, Department of Systems and Information Engineering

Dean's High Honor List *2014*
Bogazici University, School of Engineering

TEACHING EXPERIENCE/TRAINING

Guest Lectures   Stanford University
Engineering Design Optimization   *Spring 2023*
- Gave a guest lecture on linear constrained optimization.

Decision Making under Uncertainty   *Winter 2023*
- Gave two guest lectures on representation and inference.

Advanced Topics in Sequential Decision Making   *Winter 2022*
- Gave a guest lecture on applications areas of partially observable Markov decision processes.

Pedagogical Training   *Summer 2022*
Stanford Scientific Teaching Summer Institute   Stanford University
- Attended a 3-day workshop to explore the core principles of Scientific Teaching (inclusion and equity, active learning, assessment, and effective lesson planning).

Graduate Teaching Assistantship   Bogazici University
System Dynamics and Control   *Spring 2015, Spring 2016*
Control Technology and Design   *Fall 2015*
Introduction to Electrical Engineering   *Fall 2015*
- Teaching responsibilities included grading and leading lab and discussion sessions.

Undergraduate Student Assistantship   Bogazici University
System Dynamics and Control (Assisted discussion sessions)   *Spring 2014*
Orientation to Electrical Engineering (Assisted lab sessions)   *Fall 2013*

MENTORSHIP EXPERIENCE

Stanford University

- *Graduate Student Research*
Anil Yildiz, Transfer learning and validation for autonomous driving tasks	*2021 – Present*
Liam Kruse, Safe planning for autonomous vehicles	*2021 – Present*
Dylan Asmar, Out-of-distribution detection	*2022 – 2023*
Sydney Katz, Backward reachability for nonlinear systems	*2022 – 2023*
Maneekwan Toyungyernsub, Occupancy grid prediction	*2021 – 2022*
Alexandros Tzikas, Trajectory verification for autonomous driving	*2022*
Chelsea Sidrane, Backward reachability for nonlinear systems	*2022*

- *Stanford Undergraduate Research Fellowship (SURF)* — *Summer 2022*
  Research mentor for an 8-week program to promote diversity within the engineering and science student body in the USA. I advised an undergraduate student on her research topic, monitored her research progress, and advised research alongside a graduate student. Student: Michelle Ho.

- *Undergraduate Student Research*
Ellie Talius, Trajectory verification for autonomous driving	*2022*

University of Virginia

- *Graduate Mentor for Capstone Project* — *Spring 2021*
  Co-mentoring four undergraduate students on a robot navigation project

- *Graduate Mentor for Society of Women Engineers* — *Spring 2017*
  Graduate student mentor for undergraduate engineering students associated with the Society of Women Engineers. This mentorship program involved helping a student navigate her early engineering education and career.

PRESENTATIONS

Stanford Center for AI Safety Workshop, Talk	*2023*
Bay Area Robotics Symposium (BARS), Poster	*2022*
Stanford SystemX 2021 Fall Conference, Poster	*2021*
UVA Link Lab Student Seminars, Talk	*2020*
UVA Link Lab Student Flash Talks, Talk	*2020*
UVA ESE Graduate Symposium, Poster	*2018, 2020*
ICRA PhD Forum, Poster	*2018*
UVA ECE Student Research Session, Poster	*2017*

PROFESSIONAL SERVICE

Moderator, Stanford Center for AI Safety Workshop Industry Panel	*2023*
Member, Stanford Center for AI Safety Working Group	*2022*
Co-chair, Learning for Dynamics & Control Conference (L4DC)	*2022*
Program Committee Member, RSS Pioneers Workshop	*2022*
Session Co-chair, IEEE/RSJ International Conference on Intelligent Robots (IROS)	*2021*
Panelist, UVA Link Lab Student Panel: Writing and Publishing in Graduate School	*2021*
Co-organizer, UVA Systems Engineering Alumni Panel	*2020*
Session Chair, IEEE Systems and Information Engineering Design Symposium	*2019*

REVIEW ACTIVITIES

Journals:
IEEE Robotics and Automation Letters (RA-L)
Journal of Artificial Intelligence Research (JAIR)
Journal of Aerospace Information Systems
IEEE Computer Magazine

Conferences
IEEE/RSJ International Conference on Intelligent Robots (IROS)
Conference on Robot Learning (CoRL)
IEEE Conference on Decision and Control (CDC)
American Control Conference (ACC)
IEEE International Conference on Robotics and Automation (ICRA)
ACM/IEEE International Conference on Cyber-Physical Systems (ICCPS)
IEEE International Conference on Intelligent Transportation Systems (ITSC)
